

Health Care Town Hall Meeting Tonight

Several of you have asked me about Health Care Town Hall Meetings. As I'm sure you know, the Health Care Reform Bill currently being discussed in the US House includes funding for abortion and "Death Panels" that will decide whether you and your loved ones receive life saving care. Moreover, the Health Care bill will reduce the quality of care and level of medical innovation we have grown used to in America. This bill will require massive tax increases that will hit the middle class. I have made the case that the federal government has no Biblical authority and no constitutional authority to be involved in healthcare. We do need reform, but the reform we need should result in less government involvement and more free market competition. For more info on Health Care Reform, the Bible, and the Constitution, [read my blog](#) and [watch my Health Care sermons](#).

Congressman Tom Rooney is hosting a Health Care Town Hall Meeting this evening. Unlike some in Congress, Tom understands the negative ramifications of the current House Health Care Bill. Tom has advocated against the huge expansion of the size and scope of the federal government that we have seen in the last few months. You can view a [YouTube video of Tom arguing about a Second Stimulus Bill here](#). Come to tonight's Health Care Forum to thank Tom for his defense of limited government and limited taxation, to express your concerns with the bill being proposed, and to find out if the Republicans are going to submit a plan that merely expands government a slower or whether they will actually go for real reform that reduces or eliminates government interference in free market health care competition. Remember the words of Ronald Reagan, "Government is not the solution. Government is the Problem."

When: Tuesday, August 18th from 6:00 p.m. to 7:30 p.m.

Where: Indian River State College Stuart Campus
Wolf High Technology Center
2400 SE Salerno Road
Stuart, FL 34997
